## ROWING PROGRAM <br> 2 SESSIONS PER WEEK

## NOTES

This program consists of two rowing sessions per week for 14 weeks. When you complete the 14 weeks program, you can either start over and improve your results from last time or start on the program with 3 sessions per week, if you completed this without any problems.

In this program, you will meet 5 different types of training sessions:

## Program A: Test

This program is a test that measures your performance level.

## Program B: Short intervals

This program will contain shorter intervals, with high intensity to build up performance.
Program C: Capacity
This is a longer program with lower intensity to build capacity.
Program D: Engine
This program is longer with lower intensity to build your engine.

## Program E: Technique

This program is a technique program where the intensity will be very low to help you focus on technique.

## The Drag Factor

The drag factor displays the resistance in the flywheel. This can differ from machine to machine, so it will be a good idea to test the drag factor, by following the guide (only for Concept 2 rowers):

## Display guide:

1. Press the Main Menu button
2. Select More Options
3. Select Display Drag Factor
4. Begin rowing. The display will show the drag factor after a few seconds. Adjust the flywheel (on the side) to meet the 105-115 drag factor.

For this program, you will be rowing with a drag factor at 105-115 so make sure to test it and get a little insight in what resistance you are supposed to row with and the power and effort you put into the sessions.

## S/M = Stroke per minute

In the program, you also meet the term $\mathrm{S} / \mathrm{M}$ which means Stroke per minute. This is usually displayed on the top right corner on the screen.

| WEEK | METERS AND <br> INTERVAL |
| :---: | :---: |

STROKE PER MINUTE

## WEEK 1

| A | 2000 meter test | Optional |
| :---: | :---: | :---: |
| E | $3 \times 2000$ meter <br> 2 minutes rest between | Complete the 3 intervals $\begin{aligned} & \text { in: } \\ & \text { 1: } 18 \mathrm{~S} / \mathrm{M} \\ & \text { 2: } 20 \mathrm{~S} / \mathrm{M} \\ & \text { 3: } 22 \mathrm{~S} / \mathrm{M} \end{aligned}$ |
| WEEK 2 |  |  |
| B | $8 \times 500$ meter <br> 1 minute rest between | 30-32 S/M |
| D | $3 \times 12$ minutes <br> 3 minutes rest between | 22 S/M |
| WEEK 3 |  |  |
| B | $8 \times 2$ minutes <br> 1 minute rest between | Complete the $\mathbf{2}$ minute intervals in: <br> 1 minute at $26 \mathrm{~S} / \mathrm{M}$ <br> 1 minute at 30-32 S/M |
| C | $3 \times 2000$ meter <br> 3 minutes rest between | 24 S/M |
| WEEK 4 |  |  |
| D | $5 \times 2000$ meter <br> 2 minutes rest between | Perform each 2000 meter interval as: <br> 1000 meter at $20 \mathrm{~S} / \mathrm{M}$ <br> 500 meter at $22 \mathrm{~S} / \mathrm{M}$ <br> 500 meter at $24 \mathrm{~S} / \mathrm{M}$ |
|  |  |  |

| E | $2 \times 15$ minutes <br> 3 minutes rest between | 20-22 S/M |
| :---: | :---: | :---: |
| WEEK 5 |  |  |
| B | $7 \times 3$ minutes <br> 2 minutes rest between | Perform each 3 minute interval as: <br> 2 minutes at $26 \mathrm{~S} / \mathrm{M} 1$ minute at 30-32 /M |
| D | 20 minutes +10 minutes <br> 3 minutes rest between | Perform the 20 minutes interval at $\mathbf{2 0 ~ S / M}$ and the 10 minute interval at $22 \text { S/M }$ |
| WEEK 6 |  |  |
| C | $4 \times 2000$ minutes 3 minutes rest between | 24 S/M |
| D | 5 km | Perform the 5 km at: <br> 750 m at $22 \mathrm{~S} / \mathrm{M}$ <br> 250 m at $28 \mathrm{~S} / \mathrm{M}$ <br> Repeat |
| WEEK 7 |  |  |
| E | $4 \times 10$ minutes <br> 3 minutes rest between | 20-22 S/M |
| D | $3 \times 12$ minutes <br> 2 minutes rest between | 22-24 S/M |
| WEEK 8 |  |  |
| A | 2000 meter test | Optional |
| A | 5000 meter test | Optional |

| WEEK 9 |  |  |
| :---: | :---: | :---: |
| D | 4 rounds of: <br> 4 minutes <br> 4 minutes <br> 2 minutes <br> 3 minutes rest between each interval | Complete the three intervals for 4 rounds at: <br> 4 minutes at $20 \mathrm{~S} / \mathrm{M}$ <br> 4 minutes at $22 \mathrm{~S} / \mathrm{M}$ <br> 2 minutes at $\mathbf{2 4} \mathrm{S} / \mathrm{M}$ |
| E | 30 minutes rowing | 20-22 S/M |
| WEEK 10 |  |  |
| B | $4 \times 1500$ meter 4 minutes rest between | 28-30 S/M |
| C | $3 \times 2500$ meter <br> 3 minutes rest between | 24 S/M |
| WEEK 11 |  |  |
| D | $2 \times 5000$ meter <br> 5 minutes rest between | Perform each 5000-meter interval as: 2500 m at $20 \mathrm{~S} / \mathrm{M}$ 1500 m at $22 \mathrm{~S} / \mathrm{M}$ 1000 m at $24 \mathrm{~S} / \mathrm{M}$ |
| C | $4 \times 7$ minutes <br> 3 minutes rest between | 24 S/M |
| WEEK 12 |  |  |
| B | $5 \times 1000$ meter <br> 3 minutes rest between | 30-32 S/M |
| E | 7,5 km | 18-20 S/M |

| WEEK 13 |  |  |
| :---: | :---: | :---: |
| B | $5 \times 5$ minutes <br> 3 minutes rest between | Perform each 5 minute interval as: <br> 2 minutes at $28 \mathrm{~S} / \mathrm{M}$ <br> 2 minutes at $30 \mathrm{~S} / \mathrm{M}$ <br> 1 minute at $32 \mathrm{~S} / \mathrm{M}$ |
| C | $2 \times 12$ minutes <br> 5 minutes rest between | 24 S/M |
| WEEK 14 |  |  |
| C | $3 \times 8$ minutes <br> 3 minutes rest between | 24 S/M |
| E | 8 km | 20-22 S/M |
